# MICHIGAN COMMUNITY COLLEGES

Revised 01/05/09

# PUBLIC COMMUNITY COLLEGES

---

Michigan has 28 public community colleges with multiple campus locations across the state. In 2008-2009, community colleges enrolled 462,585 students. Two of the colleges are located in the Upper Peninsula, seven in the northern Lower Peninsula and the remaining 19 in southern Michigan. This distribution of colleges means that approximately 7.3 million of the 10.0 million Michigan residents live in a community college district. Both geographic proximity and the open-door admissions policy of the community colleges make higher education widely accessible in Michigan.

The community colleges of Michigan have established six missions as the basis for their activity and programs:

- Occupational education ranging from one course to the one-year certificate and the two-year Associate degree;
- General and transfer education in academic disciplines;
- Continuing education and community services;
- Developmental education;
- Student supportive services; and
- Community development.

To fulfill these missions, community colleges offer programs during weekdays, evenings, and weekends at workplaces and extension centers in their districts as well as on campuses.

Community college students include recent high school graduates, adults of all ages, and those persons who have not completed secondary education. Courses offered include pre-professional and general education courses as well as occupational, developmental, and personal interest courses. In 2008-09, 57.4% of student contact hours were in general education courses; 34.8% in occupational courses; 9.3% in developmental education, and 0.5% in personal interest courses.

The community colleges provide Michigan residents with opportunities for postsecondary education and provide services that enhance the economic, cultural, intellectual, and social life of the community.
